Lainey was born in March and given a diagnosis of Double Inlet Left Ventricle with Mitral Valve Artesia as a Single Ventricle Heart Baby. She spent over a month in the hospital and has had three surgeries. Parents Dustin and Jessa continue to make several trips to Children's Mercy. She struggles with GI issues and weight gain. She will have her Glenn surgery sometime in the fall of 2017 and another surgery when she is 3-5 years of age. Lainey has a twin sister Annabelle and two older brothers Paxton and Elijah.

Brett is 9 years old and has Osteosarcoma in his femur and a few spots on one of his lungs. He fractured his femur and because of some irregularities during its normal course of healing, Brett along with his mom Jenny and brother Matt received the news that turned their life upside down. Brett gets chemo every couple of weeks and in between visits as issues arise. Brett had surgery in February to clean out and rebuild his femur. In March, they took care of the small spots on his lung. This is not the first tragedy they have endured. Jenny's husband Heath 36 year old, a pilot for the DNR, gave his life in the line of duty spotting forest fires in 2009.

Fundraiser To Benefit Local Families In Need • All Proceeds From This Event Will Be Donated
Donations Can Be Made To Salina Guns And Hoses At Bennington State Bank.
